### BY VOICE CALL

Sara Alert™ calls show on your caller ID only as:  
**TOLL FREE NUMBER** or **(844) 957-2721**  
And it's **always** an automated voice message, like a robocall.

#### It's not Sara Alert™ if:

- ⊗ The caller ID shows a different number.
- ⊗ You hear a real person talking instead of an automated voice message.

### BY EMAIL

Sara Alert™ email messages come only from:  
[notifications@saraalert.org](mailto:notifications@saraalert.org)

This is the **only** email address that we use. The email includes a web link to report symptoms:  
<https://sara.public.saraalert.org>

#### It's not Sara Alert™ if:

- ⊗ The email comes from a different address. If this happens, delete the **message**.
- ⊗ The link in the email doesn't look like <https://sara.public.saraalert.org> followed by a set of letters and numbers. Hold your cursor over the link to see where it goes. If it's not to Sara Alert™, **don't click the link**.

### BY TEXT

Sara Alert™ text messages come only from: **(844) 957-2721**

This is the **only** number that we use.

The text message asks if you or someone who lives with you has COVID-19 symptoms, or it gives you a web link to a self-report. The web link is the same as the one showed in the By Email section above.

#### It's not Sara Alert™ if:

- ⊗ The text comes from a different number.
- ⊗ The web link doesn't go to a Sara Alert™ page.
