

1 What data can I access? What actions can I take?

Data Access

- Sara Alert user account information for users in your assigned jurisdiction
- You will not have access to individual monitoree records or the analytics summary

Actions

- Add, manage, and audit Sara Alert user accounts
- Assign jurisdictions
- Assign and modify user roles
- Add or edit notes about each user
- View/export list of users in your jurisdiction
- Reset passwords, lock accounts, and set a user status
- Configure Two-factor authentication
- Enable users' API access

2 How do I add a new Sara Alert user?

1. Login to the Administrator dashboard, select "Add User"
2. Enter the new user's email address
3. Configure the user's jurisdiction and role, and add a note if desired
4. Click "Save" to complete the process

3 What are the different roles I can assign?

Administrators should assign a new user the role with the fewest capabilities and least record access required to perform their job.
